Products & Cooperation

The backpack doubles as an expression of your personality and a versatile entertainment hub, offering individual or clustered control options for tailored experiences.

Product description

3UVIEW
SMART VEHICLE DISPLAY

Introduction to Backpack LED Screen

The use of LED backpack smart advertising screens enables precise targeting and enhances advertising effectiveness, particularly among mobile demographics who favor backpacks. With its flexibility, advertisers and individuals can craft compelling ad content to boost brand visibility, leveraging creative design and production. Moreover, ongoing technological innovations promise greater convenience and efficiency for both advertisers and consumers.

Product structure

Side view

New Backpack LED Screen

The whole body is made of water-repellent material, durable and strong, and not afraid of being exposed to rain.

New Backpack LED Screen

Using high-brightness outdoor LED lamp beads, the brightness can reach 5000 CD/m2 under daylight.

The brightness sensor can be used to automatically adjust the brightness of the LED screen according to environmental changes to maintain the best display effect at all times.
