**PART/02**

## ***Products & Cooperation***

LED takeout box smart car screen allows our takeaway guys to earn advertising fees when delivering takeout, a win-win situation for all parties.

## Product description

**3UVIEW**  
SMART VEHICLE DISPLAY

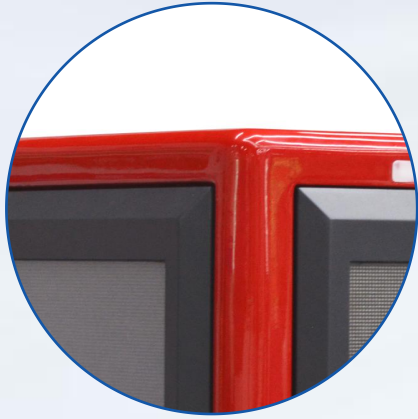

### New Takeaway Box LED Screen

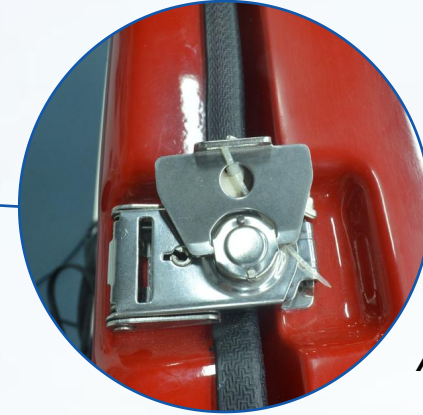

High coverage: Delivery drivers have significant presence and flexibility, traversing various commercial, financial, residential, and transportation hubs, ensuring frequent exposure to advertisements during commuting, home stays, business visits, and shopping.

Fluid mobility of delivery personnel transcends geographical boundaries, enabling pervasive dissemination of advertising messages to a wide audience across all corners of the city without constraints of time or routes, surpassing the reach of conventional advertising methods.

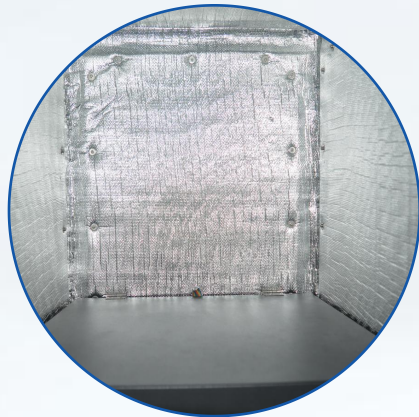

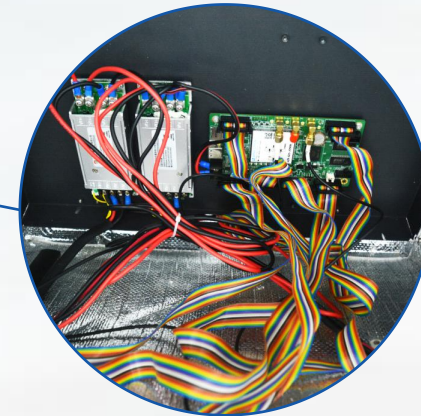

*FRP Material*

*Anti-theft firmware*

*Internal structure*

*Customized control system  
car power supply*

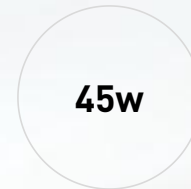

## New Takeaway Box LED Screen

A customized LED vehicle power supply is used to effectively convert the voltage on the vehicle.

Energy-saving circuit design reduces power consumption without affecting the overall display effect.

Using energy-saving lamp beads, through the overall energy-saving solution, the maximum power consumption of LED display equipment is controlled within 100W, and the average power consumption is about 45W.

## New Takeaway Box LED Screen

Using high-brightness outdoor LED lamp beads, the brightness can reach 5000 CD/m2 under daylight.

Three-sided LED full-color display can play pictures, text, animations, and videos, making advertisements more accessible to a wider audience and richer in content.

# Product advantages

**3UVIEW**  
SMART VEHICLE DISPLAY

## New Takeaway Box LED Screen

FRP fiberglass box, light weight.

Waterproof rubber gasket seals, moisture-proof.

The surface is oxidized and does not rust or corrode.

Specially designed reinforced shock-proof structure and heat dissipation structure

Suitable for complex road conditions. Ensure installation strength.

# Installation steps

**3UVIEW**  
SMART VEHICLE DISPLAY

*All accessories*

*Align rear seat bottom*

*Base drilling*

*Install iron plate*

*Tighten all around*

*Inside the box*

*Power on*

*Light test*

Tips: Each car model has different mounting brackets and different mounting bracket lengths. Corresponding installation methods can be designed.

## WIRELESS AND REMOTE CONTROL, SMART PLAY LIST

### Precise advertising

Each screen can play different ads, or the same ads can be played at the same time.

### Targeted delivery

Advertising can be placed on takeaway boxes in designated areas.

### Group delivery

Large-scale and rapid advertising for regional grouping or vehicle grouping.

# Product parameters

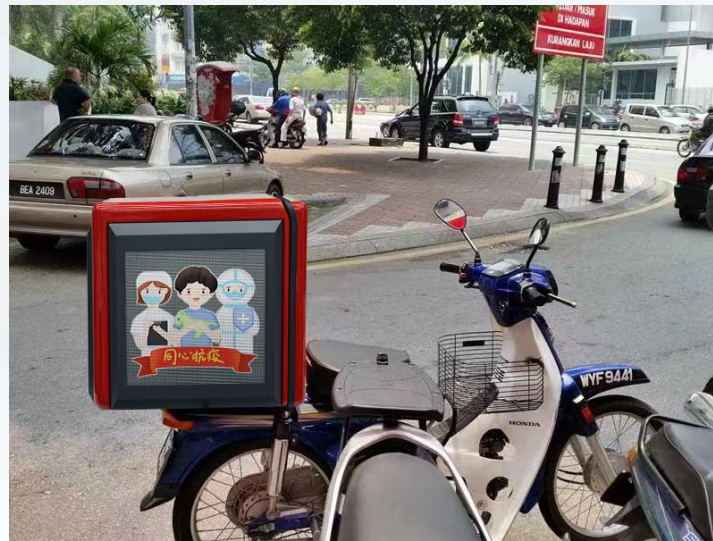

|                      | WB2.5       | WB3                            | WB4       |
